

PREGUNTAS PARA EL SEGUNDO PARCIAL INGLES TECNICO 2

1. About you

Can you tell me a bit about yourself?

Angel: Of course. I'm Angel, and I'm passionate about technology. I started coding when I was a teenager, and since then, I have created several projects on my own. What's more, I'm now studying to become a full-stack developer.

2. About your strengths

What are your greatest strengths as a web developer?

Angel: I'd say teamwork and creativity. I've worked in both individual and collaborative environments, and I always try to find better solutions than expected. Moreover, I'm detail-oriented, which results in fewer errors during development.

3. About your weaknesses

What are your weak points?

Angel: Well, I tend to overthink before starting a new project. Still, I try to plan better each time. I must say that although it was a disadvantage before, now it helps me avoid mistakes.

4. About hobbies/interests

What do you like to do outside of work?

Angel: Outside of work, I like exercising and spending time with friends. I also take online courses to improve my skills. As a result, I've become more confident as a developer.

5. About the job you are applying for

Why do you want to work for Trades.org?

Angel: I want to work here because your projects promote innovation and collaboration. What's more, your mission aligns with my values as a developer. I've been following your work, and I believe I could contribute with fresh ideas.

6. About hiring you

Why should we choose you for this position?

Angel: I should be chosen because I'm committed and I enjoy solving problems creatively. I've learned that teamwork produces better results than working alone. Besides, I have both technical and communication skills.

7. What do you know about our company?

What do you know about our company?

Angel: I've read that you specialize in connecting trade professionals with clients. Your platform is faster and more reliable than most competitors, which shows your commitment to quality.

8. About present experience

What are you doing in your current job?

Angel: I'm developing web applications and helping clients improve their online presence. Sometimes, I must test new features before they are launched, so teamwork is essential.

9. About past work experience

Tell us about your previous job.

Angel: I worked in a small company where I built websites using HTML, CSS, and JavaScript. A new CMS was developed by our team, and I participated in the testing process.

10. About career goals

What are your professional goals?

Angel: I aim to work in international projects where I can learn from other cultures. I'd like to improve my leadership and technical skills. Moreover, I believe continuous learning is more valuable than any short-term success.
